INVESTMENT OBJECTIVE

The Domini Impact International Equity Fund seeks to provide its shareholders with long-term total return.

INVESTMENT STRATEGY

- The Domini Impact International Equity Fund invests in a diversified portfolio of primarily large and mid-sized companies in Europe, the Asia-Pacific region, and throughout the rest of the world.
- Domini Impact Investments conducts in-depth social and environmental research on all holdings. Only companies that meet Domini's Impact Investment Standards are eligible for investment by the Fund.
- Wellington Management, the Fund's sub-manager, seeks to add value through active quantitative stock selection, while managing risk through portfolio construction.

IMPACT INVESTMENT STANDARDS

Two fundamental principles underlie Domini's Impact Investment Standards: the promotion of a society that values human dignity and the enrichment of our natural environment. Domini believes that companies prosper in the long run when they respect their communities, protect the environment, produce safe and useful products, and treat workers, investors, and suppliers fairly.

SHAREHOLDER ACTIVISM

On behalf of Fund shareholders, Domini uses its voice as an owner to seek improvement in companies' social and environmental performance.

WHO SHOULD INVEST

- Investors who seek long-term growth of capital and wish to diversify their investments by including non-U.S. stocks
- Investors who understand that the way we invest shapes the world that we and future generations will live in
- Investors willing to accept moderate to significant fluctuation in share price

Investing internationally involves special risks, such as currency fluctuations, social and economic instability, differing securities regulations and accounting standards, limited public information, possible changes in taxation, and periods of illiquidity. These risks are magnified in emerging markets.

*The Price/Earnings Ratio is a stock's current price divided by the company's trailing 12-month earnings per share. The (P/E) ratio of a fund is the weighted average of the price/earnings ratios of the stocks in a fund's portfolio. R-squared measures how a fund's performance correlates with a benchmark index's performance and shows what portion of it can be explained by the performance of the overall market/index. R-squared ranges from 0, meaning no correlation, to 1, meaning perfect correlation. Beta is a measure of the volatility of a fund relative to its benchmark index. A beta greater (less) than 1 is more (less) volatile than the index.

**The Domini Impact International Equity Fund Class A shares are subject to a front-end sales charge of up to 4.75%. Please consult the prospectus or your Service Organization for more information.

‡ On 11/28/08, the Fund's newly formed Class A shares acquired the assets and liabilities of the Domini European PacAsia Social Equity Portfolio. Because the Fund's Class A shares were not offered prior to November 28, 2008, performance for periods beginning prior to Nov. 28 is the performance of the Investor shares. This performance has not been adjusted to reflect the lower expenses of the Class A shares, but where noted, does reflect an adjustment for the maximum applicable sales charge of 4.75%.

The fund may focus its investments in certain regions or industries, thereby increasing its potential vulnerability to market volatility.

The Morgan Stanley Capital International Europe, Australasia, and Far East (MSCI EAFE) is an unmanaged index of common stocks. Investors cannot invest directly in an index. The composition of the Fund's portfolio is subject to change.

Past performance is no guarantee of future results. The Fund's returns quoted above represent past performance after all expenses. Investment return, principal value, and yield will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. For performance information current to the most recent month-end, visit www.domini.com or call 1-800-498-1351.

As stated in its current prospectus, the Fund's gross annual operating expenses totaled 1.53% of net assets. Until 11/30/17, the Fund's Manager has contractually agreed to waive certain fees and/or reimburse certain expenses, including management fees, so that expenses paid by the Fund will not exceed, on a per annum basis, 1.57% of its average daily net assets. The Fund charges a 2.00% redemption fee on sales or exchanges of shares made less than 30 days after the settlement of purchase or acquisition through exchange, with certain exceptions. See the Fund's current prospectus for further information.

Total return for the Fund is based on the Fund's net asset values and assumes all dividends and capital gains were reinvested. Certain fees payable by the Fund were waived during the period, and the Fund's average annual total returns would have been lower had these not been waived. The tables above do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

	Amount of Purchase	% of Offering Price	% of Net Amount Invested

	\$1 million and over ²	None	None

¹Certain types of investors may be able to have Class A initial sales charges waived. Please see the prospectus, Shareholder Manual: How Sales Charges are Calculated: Waiver for Certain Class A Investors for more information.

** You pay no initial sales charge when you invest \$1 million or more in certain Domini Fund shares. However, you may be subject to a contingent deferred sales charge of up to 1.00% of the lesser of the cost of the shares at the date of purchase or the value of the shares at the time of redemption if you redeem within one year of purchase. The Fund's distributor may pay up to 1.00% to a Service Organization for purchase amounts of \$1 million or more. In such cases, starting in the thirteenth month after purchase, the Service Organization will also receive the annual distribution fee of up to 0.25% of the average daily net assets of the Fund held by its clients. Prior to the thirteenth month, the Fund's distributor will retain the service fee. Where the Service Organization does not receive the payment of up to 1.00% from the Fund's distributor, the Service Organization will instead receive the annual service fee starting immediately after purchase. In certain cases, the Service Organization may receive a payment of up to 1.00% from the distributor as well as the annual distribution and service fee starting immediately after purchase. Please consult the Fund's prospectus and your Service Organization for more information.
