

Domini Investment Trust

Proxy Voting Guidelines and Procedures

Adopted October 29, 2024

To be implemented for proxy votes occurring on or after November 30, 2024

INTRODUCTION

These Proxy Voting Guidelines and Procedures have been adopted by the Domini Investment Trust on behalf of each of its series (each a Fund and collectively, the “Domini Funds” or the “Funds”) to ensure that all proxies for securities held by the Funds are cast in the best interests of the Domini Funds’ shareholders, to whom the Funds owe a fiduciary duty.

The Board of Trustees (“Board”) of the Domini Funds delegates the responsibility to vote proxies for the Funds to Domini Impact Investments LLC, the Funds’ investment adviser (“Domini” or the “Adviser”), consistent with the Proxy Voting Guidelines and Procedures set forth herein. The Board reviews the Proxy Voting Guidelines and Procedures on an annual basis on behalf of the Funds, and receives quarterly reports from Domini regarding the execution of its proxy voting duties. The Board also delegates to Domini the authority to make non-material amendments to the Guidelines and Procedures as necessary, subject to annual ratification.

1. Conflicts of Interest

The Board delegates the responsibility for resolving conflicts of interest that may arise between Domini and the Domini Funds in the execution of the Adviser’s proxy voting duties to the Adviser. Pursuant to the Proxy Voting Procedures, where a significant conflict of interest arises, the Board expects Domini to consult with one or more members of the independent trustees to determine an appropriate course of action (see “Conflicts of Interest” below).

2. Shareblocking and Other Obstacles to Voting

Certain countries impose “shareblocking” restrictions, meaning that a shareholder is prevented from trading shares for a period of time between the date of the deadline for submission of the vote and the annual meeting (these restrictions vary from country to country). The Adviser shall seek to vote shares for every holding in a Domini Fund portfolio. However, the Adviser may forego the opportunity to vote when, in its judgment, shareblocking restrictions could impair the ability to effectively manage a Fund’s portfolio.

In addition, due to particularly onerous procedural impediments in certain countries, the Adviser will not always be assured of the ability to vote Fund shares, and in certain circumstances may choose not to vote where it believes it may not be in a Fund’s best interests to cast a vote. The Adviser may also choose not to vote in certain markets that impose fees for voting proxies or if there is insufficient information available to make an informed voting decision.

A Fund may miss opportunities to vote when companies fail to provide information in a timely manner or when custodial or proxy advisory delays prevent the Adviser from voting Fund shares on time. The Adviser may also miss opportunities to consider certain proxy information when companies or proxy advisory firms fail to provide such information, research or analysis in a timely manner.

3. International

The general principles guiding Domini’s proxy voting practices apply globally and we will seek to apply these Guidelines consistently in all markets unless the application of the Guidelines is inconsistent with corporate governance standards and practices in the foreign market, in which case Domini may refer to the research, analysis and recommendations provided by Glass, Lewis & Co., LLC, . (“Glass Lewis”) in accordance with its ESG Thematic Policy.¹

4. Delegation

The Adviser may delegate the responsibility to review proxy proposals and make voting recommendations to a non-affiliated third party vendor, subject to the Adviser’s oversight, analysis, and voting discretion. The Adviser will ensure that any third party voting recommendations followed are consistent with the Guidelines. In all cases, however, the ultimate decisions on how to vote proxies are retained by the Adviser.

Proxy Voting Guidelines

The Proxy Voting Guidelines (“Guidelines”) set forth in Exhibit A summarize the Adviser’s positions on various issues of concern to socially responsible investors and indicate how Fund shares will be voted on each issue. The Guidelines have been developed to ensure consistency with the social and environmental standards applied to Fund portfolios and Domini’s overall stock selection process.

Because the Funds have a fiduciary duty to vote all shares in the best interests of the Funds’ shareholders, Domini will vote proxies after considering shareholders’ financial interests and social objectives. For that reason, there may be instances in which proxies may not be voted in strict adherence to these Guidelines, based on Domini’s review of the merits of the proposal and the performance of the issuer on the topic presented. Domini may, for example, abstain or vote against certain shareholder proposals where we have concerns about the framing of the proposal, including cases where we do not believe the proposal’s request is reasonable, or where we believe the company has sufficiently addressed the core concerns that are raised.

These Guidelines are subject to change without notice.

Proxy Voting Procedures

Domini, on behalf of its clients (including the Funds) has entered into an agreement with Glass, Lewis & Co., LLC, . (“Glass Lewis”), an unaffiliated third party proxy advice and administration firm, pursuant to which Glass Lewis votes proxies in accordance with the Guidelines, as described below, and performs various proxy vote related services such as providing vote analysis, processing and recordkeeping functions.

Glass Lewis receives proxy statements and proxy ballots directly or indirectly from various custodians and/or issuers, logs these materials into its database and matches upcoming meetings with Domini client portfolio holdings, which are input into the Glass Lewis proxy voting platform (“Viewpoint”) in

¹ <https://www.glasslewis.com/wp-content/uploads/2024/01/2024-ESG-Thematic-Voting-Policy-Glass-Lewis.pdf>

accordance with a Domini holdings data-feed. Through Viewpoint, ballots and proxy materials, research and summaries for all upcoming shareholders' meetings are available on-line to certain Domini employees and members of the Domini Proxy Voting Team.

Domini retains oversight of the proxy voting function and retains the authority to set voting policies and to vote the proxies of the Domini Funds.²

Primary responsibility for the proxy voting function at Domini rests with Domini's Director of Engagement.

Domini's primary responsibilities include the following:

1. *Developing the Proxy Voting Guidelines:* The Guidelines, which set voting policies for all securities for which Domini has authority to vote on behalf of the Funds, are reviewed on at least an annual basis, and updated, when necessary, to reflect new issues raised by shareholder activists, regulatory changes and other developments. Domini is also responsible for developing procedures and additional policies, where necessary, to ensure effective implementation of the Guidelines. Domini shall submit the Guidelines to the Board for review at least once per year. The Board has delegated to Domini the authority to make non-material amendments to the Guidelines and Procedures as necessary, subject to annual ratification.
2. *Evaluation of vendors:* To ensure that proxies are being voted in a timely fashion, and in accordance with the Guidelines, Domini will receive and review alerts from Glass Lewis as-needed and periodic voting reports from Glass Lewis no less frequently than quarterly. Domini shall present a summary proxy voting report to the Board at least quarterly.
3. *Identify and address conflicts of interest where they arise (See "Conflicts of Interest," below)*
4. *Voting:* Glass Lewis, at the direction of Domini, automatically votes all proxy matters that are covered by the Guidelines and do not require the particular exercise of discretion or judgment by Domini with respect to the Guidelines. Glass Lewis votes such ballots in accordance with its interpretation of the Guidelines based on Glass Lewis' research and analysis, subject to Domini's oversight and review.

Representatives of the Domini Proxy Voting Team periodically review, as Domini determines reasonable, votes cast by Glass Lewis to ensure votes are cast and are in conformity with the Guidelines. At its discretion, Domini may override the Glass Lewis vote up to the "cut off" date for submitting the vote, or applicable meeting date, when possible.

Where the Guidelines are silent on an issue, where there are unique circumstances that require further examination, or where the Guidelines require an analysis by Domini, Glass Lewis will refer these items to Domini to determine how to vote, except as noted below.

² The Board of Trustees ("Board") of the Domini Funds has delegated the responsibility to vote proxies for the Funds to Domini, the Funds' investment adviser ("Domini"), and to resolve conflicts of interest that may arise in the execution of the proxy voting function. The Board reviews and adopts the Guidelines and Procedures on an annual basis on behalf of the Funds, and receives quarterly reports from Domini regarding the execution of its proxy voting duties.

With respect to items referred to Domini to determine how to vote, the Domini Proxy Voting Team or its representative considers and votes on such proxy matters. Domini has access to Glass Lewis research and recommendations through Viewpoint which it may take into account in deciding how to vote. Domini may also draw upon a variety of other materials including, for example, analyses provided by other proxy advisory services, Domini's independent research, newspaper reports, academic studies, nongovernmental organizations with expertise in the particular issue being voted on, affected stakeholders, and corporate SEC filings, including management's position on the issue in question. Domini analyzes such issues independently and does not necessarily vote in accordance with Glass Lewis' recommendations on these issues.

Domini reserves the right to override the Guidelines when such an override is, in Domini's best judgment, consistent with the best interests of Domini clients.

Glass Lewis shall vote on matters otherwise eligible for referral in accordance with the Glass Lewis ESG Thematic policy as applicable to the issuer's home jurisdiction as instructed by Domini.³

Domini shall review and update the default voting instructions set forth in the Guidelines as needed, but no less frequently than annually.

5. Reporting to Clients (where client is a fund, to the Domini Funds Board of Trustees): Domini is responsible for ensuring that the following reporting duties are performed: (a) Annual preparation and filing of Form N-PX, containing an annual record of all votes cast for each client. The Form will be posted to Domini's website and on the SEC's website at www.sec.gov; (b) Availability of Domini's Web page containing an ongoing record of all votes cast for the Domini Funds each year; (c) Responding to client requests for proxy voting information; (d) Annual review and update of proxy voting information in Form ADV, Part II, the Statement of Additional Information for the Domini Funds and the Funds' shareholder reports; (e) Communication of material changes to the Policies or Procedures; (f) Ensuring that all new clients receive a copy of the most recent Form ADV, containing a concise summary of Domini's proxy voting policies and procedures; (g) Quarterly reporting to the Domini Funds' Board of Trustees on proxy voting activity.

6. Recordkeeping — Domini will maintain the following records: (a) the Guidelines and Procedures, as amended from time to time; (b) records of a client's written request for information on how Domini voted proxies for the client, and any written response to an oral or written client request for such information; (c) any documents prepared or reviewed by Domini that were material to making a voting decision, or that memorialized the basis for that decision, with the exception of Glass Lewis analyses and corporate proxy statements, which are maintained by Glass Lewis as noted below. These records will be maintained in an easily accessible location for at least five years from the end of the fiscal year during which the last

entry was made on such record. For the first two years, such records will be stored at the offices of Domini.

Domini relies upon Glass Lewis to maintain the following records on its behalf, and to provide such records to Domini upon request: (a) proxy statements received regarding client securities (Such proxy statements are also available via electronic filings from the SEC's EDGAR filing system); (b) records of votes cast on behalf of Domini clients (Annual records are maintained at Domini and filed with the SEC; Database of votes cast is maintained by Glass Lewis, and available upon request by Domini); and (c) proxy research and application of custom policy guidelines.

Domini may rely upon the SEC's EDGAR system to maintain certain records referred to above.

Glass Lewis

Glass Lewis and the clients' custodian monitor corporate events. Glass Lewis provides analyses of each issue to be voted on, makes recommendations based on the Guidelines, and casts each vote (subject to oversight and override by Domini). Glass Lewis is also responsible for maintaining complete records of all votes cast, including hard copies of all proxies received, preparing voting reports for Domini, and maintaining Domini's Web page containing an ongoing record of all votes cast for the Domini Funds each year. Glass Lewis also provides consulting services to Domini on the development of proxy voting policies.

Conflicts of Interest

Although Domini does not currently manage any pension plans, administer employee benefit plans, or provide brokerage, underwriting, insurance, or banking services, there are occasions where potential conflicts of interest may arise. For example, potential conflicts of interest may present themselves in these circumstances:

- A Domini Fund is included in a 401(k) plan sponsored by a company, or Domini is actively seeking to have one of its Funds included in a 401(k) plan sponsored by a company, and Domini is entitled to vote a proxy issued by the same company.
- A significant vendor, business partner, client or Fund shareholder may have a vested interest in the outcome of a proxy vote.
- A Domini executive or an individual involved in the proxy voting function may have a personal or business relationship with the proponent of a shareholder proposal or an issuer, or may otherwise have a vested interest in the outcome of a proxy vote.

The Guidelines and Procedures are designed to ensure that all proxies are voted in the best interests of all of our clients and Fund shareholders by isolating the proxy voting function from potential conflicts of interest, to the extent possible. Most importantly, the majority of our Guidelines are predetermined, meaning that they outline an issue and determine a specific vote. With few exceptions, these policies are applied as drafted.

In most instances, therefore, votes are cast according to predetermined policies, and potential conflicts of interest cannot influence the outcome of our voting decisions. There are, however, several voting

Guidelines that require a case-by-case determination, and other instances where we may vary from our predetermined policies where we believe it is in our clients' and Fund shareholders' best interests to do so.

Any Domini employee involved in a voting decision is directed to identify any conflicts of interest he or she is aware of, including any contacts from outside parties or other members of Domini's staff or management team regarding the proxy issue in question.

If conflicts are identified, and they are of a personal nature, that individual will be asked to remove himself or herself from the decision-making process.

Where a proxy voting decision is decided in-house by Domini, the following additional procedures have been adopted to ensure that conflicts of interest are identified and appropriately addressed:

Domini is a relatively small firm, and it is not possible to completely insulate decision-makers from all potential conflicts of interest relating to Domini's business. If the conflicts are related to Domini's business, therefore, Domini will do the following:

1. Domini will delegate the decision to Glass Lewis to cast the vote in accordance with the Glass Lewis ESG Thematic Policy applicable to the issuer's subject market, after verifying that Glass Lewis does not have a material conflict of interest. Domini will take all necessary steps to insulate Glass Lewis from knowledge of the specific nature of the conflict so as not to influence the voting decision.
2. If Glass Lewis has a conflict as well, where practical, Domini will present the conflict to the client and seek guidance or consent to vote the proxy (where the client is a mutual fund, Domini will seek guidance from the Domini Funds' independent trustees).⁴
3. Where Domini is unable to pursue (a), above, or at the direction of the client, Domini will abstain.
4. Domini will keep records of how the conflict was identified and what resolution was reached. These records will be available for review at the client's request.

* * * * *

These Guidelines and Procedures are subject to change without notice. They will be reviewed, and updated where necessary, on at least an annual basis and will be posted to Domini's website at www.domini.com/proxyvoting.

⁴ In some cases, disclosure of the specific nature of the conflict may not be possible because disclosure is prohibited by Domini's privacy policy (where, for example, the conflict concerns a client or Fund shareholder) or may not otherwise be in the best interests of a Domini client, disclosure may violate other confidentiality obligations of the firm, or the information to be disclosed may be proprietary and place Domini at a competitive disadvantage. In such cases, we will discuss the situation with the client and seek guidance.

Domini Proxy Voting Guidelines*
As of November 30, 2024

Topic	Domini's Voting Instruction
Board of Directors	
Uncontested Election of Directors	
Board Accountability	Votes on individual director nominees are made on a case-by-case basis.
	Problematic Takeover Defenses Vote against/withhold from the entire board (except as specified below or for new nominees, who should be considered on a case-by-case basis) for the following:
	Classified Board Structure The board is classified, and a continuing director responsible for a problematic governance issue at the board/committee level that would warrant an against/withhold recommendation is not up for election. All appropriate nominees (except new) may be held accountable.
	Removal of Shareholder Discretion on Classified Boards Vote against if the company has opted into, or failed to opt out of, state laws requiring a classified board structure.
	Director Performance Evaluation Vote on a case-by-case basis if the board lacks mechanisms to promote accountability and oversight, coupled with sustained poor performance relative to peers. Sustained poor performance is measured by one, three, and five year total shareholder returns in the bottom half of a company's four-digit GICS industry group (Russell 3000 companies only). Take into consideration the company's five-year total shareholder return and five-year operational metrics.
	<p>Poison Pills</p> <p>Generally vote against or withhold from all nominees (except new nominees, who should be considered case-by-case) if:</p> <ul style="list-style-type: none"> - The company has a poison pill with a deadhand or slowhand feature. - The board makes a material adverse modification to an existing pill, including, but not limited to, extension, renewal, or lowering the trigger, without shareholder approval. - The company has a long-term poison pill (with a term of over one year) that was not approved by the public shareholders¹. <p>Vote case-by-case on nominees if the board adopts an initial short-term pill (with a term of one year or less), without shareholder approval, taking into consideration:</p>

¹ Public shareholders only, approval prior to a company's becoming public is insufficient.

	<ul style="list-style-type: none"> - The disclosed rationale for the adoption; - The ownership trigger; - The company’s market capitalization (including absolute level and sudden changes); - a commitment to put any renewal to a shareholder vote, and - other factors as relevant.
Board Accountability (cont'd)	Problematic Audit Related Practices <p>Vote against/withhold from Audit Committee members if:</p> <ul style="list-style-type: none"> - The non-audit fees paid to the auditor are excessive (defined as more than 50 percent of total audit fees); - The company receives an adverse opinion on the company's financial statements from the auditor; - There is pervasive evidence that the company entered into an inappropriate indemnification agreement with its auditor that limits the ability of the company, or its shareholders, to pursue legitimate legal recourse against the audit firm. <p>Vote case-by-case on members of the Audit Committee and/or the full board if poor accounting practices are identified that rise to a level of serious concern, such as; fraud, misapplication of GAAP, and material weaknesses identified in Section 404 disclosures.</p>
	Problematic Compensation Practices <p>In the absence of an Advisory Vote on Executive Compensation ballot item, or, in egregious situations, vote against/withhold from the Compensation Committee and potentially the full board if:</p> <ul style="list-style-type: none"> - There is a significant misalignment between CEO pay and company performance. - The company has problematic pay practices including options backdating, excessive perks and overly generous employment contracts etc. - The board exhibits a significant level of poor communication and responsiveness to shareholders - The company reprices underwater options for stock, cash, or other consideration - The company fails to include a Say on Pay ballot item when required under SEC provisions, or under the company’s declared frequency of say on pay; or - The company fails to include a Frequency of Say on Pay ballot item when required under SEC provisions. <p>Generally vote against members of the board committee responsible for approving/setting non-employee director compensation if there is a pattern (i.e. two or more years) of awarding excessive non-employee director compensation without disclosing a compelling rationale or other mitigating factors.</p>

<p>Board Accountability (cont'd)</p>	<p>Problematic Pledging of Company Stock</p> <p>Vote against the members of the committee that oversees risks related to pledging, or the full board, where a significant level of pledged company stock by executives or directors raises concerns. The following factors will be considered:</p> <ul style="list-style-type: none"> - The presence of an anti-pledging policy, disclosed in the proxy statement, that prohibits future pledging activity; - The magnitude of aggregate pledged shares in terms of total common shares outstanding, market value, and trading volume; - Disclosure of progress or lack thereof in reducing the magnitude of aggregate pledged shares over time; - Disclosure in the proxy statement that shares subject to stock ownership and holding requirements do not include pledged company stock; and - Any other relevant factors.
	<p>Material Environmental, Social and Governance (ESG) Failures</p> <p>Vote on a case-by-case basis regarding the following; under extraordinary circumstances, vote against/withhold from directors individually, committee members, or potentially the entire board due to:</p> <ul style="list-style-type: none"> - A lack of sustainability reporting in the company's public documents and/or website in conjunction with a failure to adequately manage or mitigate environmental, social and governance (ESG) risks. - Material failures of governance, stewardship, risk oversight, or fiduciary responsibilities at the company, including failure to adequately guard against or manage ESG risks, with particular attention to sustainability crisis management. - Failure to replace management as appropriate - Egregious actions related to the director(s)' service on other boards that raise substantial doubt about his or her ability to effectively oversee management and serve the best interests of shareholders at any company. <p>* Examples of failure of risk oversight include but are not limited to: bribery; large or serial fines or sanctions from regulatory bodies; demonstrably poor risk oversight of environmental and social issues, including climate change; significant environmental incidents including spills and pollution; large scale or recurring workplace fatalities, injuries health and safety or discrimination incidents; significant adverse legal judgments or settlements; or hedging of company stock.</p>

	<p>Climate Risk Mitigation and Net Zero.</p> <p>For companies that are significant GHG emitters,² through its operations or value chain, generally vote against or withhold from the incumbent chair of the responsible committee (or other directors on a case-by-case basis) in cases where Glass Lewis determines that the company is not taking the minimum steps needed to be aligned with a Net Zero by 2050 trajectory.</p> <p>Minimum steps needed to be considered to be aligned with a Net Zero by 2050 trajectory are (all minimum criteria will be required to be in alignment with policy):</p> <ul style="list-style-type: none"> ▪ The company has detailed disclosure of climate-related risks, such as according to the framework established by the Task Force on Climate related Financial Disclosures (TCFD), including: <ul style="list-style-type: none"> ▪ Board governance measures; ▪ Corporate strategy; ▪ Risk management analyses; and ▪ Metrics and targets. ▪ The company has declared a Net Zero target by 2050 or sooner and the target includes scope 1, 2, and relevant scope 3 emissions. ▪ The company has set a medium-term target for reducing its GHG emissions. <p>Expectations about what constitutes "minimum steps needed to be aligned with a Net Zero by 2050 trajectory" will increase over time.</p>
<p>Board Accountability (cont'd)</p>	<p>Unilateral Bylaw/Charter Amendments</p> <p>Generally vote against or withhold from directors individually, committee members, or the entire board (except new nominees, who should be considered case-by-case) if the board amends the company's bylaws or charter without shareholder approval in a manner that materially diminishes shareholders' rights or that could adversely impact shareholders, considering the following factors:</p> <ul style="list-style-type: none"> - The board's rationale for adopting the bylaw/charter amendment without shareholder ratification - Disclosure by the company of any significant engagement with shareholders regarding the amendment; - The level of impairment of shareholders' rights caused by the board's unilateral amendment to the bylaws/charter; - The board's track record with regard to unilateral board action on bylaw/charter amendments or other entrenchment provisions; - The company's ownership structure; - The company's existing governance provisions; - The timing of the board's amendment to the bylaws/charter in connection with a significant business development; and, - Other factors, as deemed appropriate, that may be relevant to determine the impact of the amendment on shareholders.

² Defined by the Glass Lewis ESG Thematic Policy.

Unless the adverse amendment is reversed or submitted to a binding shareholder vote, in subsequent years vote **case-by-case** on director nominees. Generally vote against (except new nominees, who should be considered case-by-case) if the directors:

- Adopted supermajority vote requirements to amend the bylaws or charter; or
- Eliminated shareholders' ability to amend bylaws.

Board Accountability (cont'd)	Problematic Governance Structure - Newly Public Companies	<p>For companies that hold or held their first annual meeting³ of public shareholders after Feb. 1, 2015, generally vote against or withhold from directors individually, committee members, or the entire board (except new nominees, who should be considered case-by-case) if, prior to or in connection with the company's public offering, the company or its board adopted bylaw or charter provisions materially adverse to shareholder rights:</p> <ul style="list-style-type: none"> - Supermajority vote requirements to amend the bylaws or charter; - A classified board structure; - Other egregious provisions. <p>A provision which specifies that the problematic structure(s) will be sunset within seven years of the date of going public will be considered a mitigating factor.</p> <p>Unless the adverse provision and/or problematic capital structure is reversed or removed, vote case-by-case on director nominees in subsequent years.</p>
	Management Proposals to Ratify Existing Charter or Bylaw Provisions	<p>Vote against/withhold from individual directors, members of the governance committee, or the full board, where boards ask shareholders to ratify existing charter or bylaw provisions considering the following factors:</p> <ul style="list-style-type: none"> - The presence of a shareholder proposal addressing the same issue on the same ballot; - The board's rationale for seeking ratification; - Disclosure of actions to be taken by the board should the ratification proposal fail; - Disclosure of shareholder engagement regarding the board's ratification request; - The level of impairment to shareholders' rights caused by the existing provision; - The history of management and shareholder proposals on the provision at the company's past meetings; - Whether the current provision was adopted in response to the shareholder proposal; - The company's ownership structure; and - Previous use of ratification proposals to exclude shareholder proposals.
	Restrictions on Shareholders' Rights	<p>Generally vote against or withhold from members of the governance committee if:</p> <ul style="list-style-type: none"> - The company's governing documents impose undue restrictions on shareholders' ability to amend the bylaws. Such restrictions include, but are not limited to: outright prohibition on the submission of binding shareholder proposals, or share ownership requirements or time holding requirements in excess of SEC Rule 14a-8. Vote against on an ongoing basis.

³ Includes companies that emerge from bankruptcy, SPAC transactions, spin-offs, direct listings, and those who complete a traditional initial public offering.

	<p>Stakeholder Governance</p> <p>Generally vote for proposals seeking nomination of stakeholder representatives to the board, seeking to improve stakeholder voice at the board level, or seeking related feasibility studies or disclosure.</p> <p>Generally vote for proposals seeking alignment of corporate policies and practices with public company statements or related disclosures.</p>
<p>Say on Climate</p>	<p>Say on Climate</p> <p>Vote case-by-case on management proposals seeking approval of the company’s climate transition action plan (so-called “Say on Climate” proposals) taking into account the completeness and rigor of the plan based on evaluation of plan and alignment with Domini Climate Transition Plan expectations, including:</p> <ol style="list-style-type: none"> 1. Absolute (vs intensity) GHG emissions reduction targets and reporting 2. Near-term quantitative GHG targets (2030) 3. Explicit business model change strategies 4. Capital expenditures, and research and development alignment strategies and goals and evidence of progress toward the goals 5. Climate-related physical risk assessments 6. Just transition strategies and programs regarding workers, communities and customers.

**Board
Responsiveness**

Vote **case-by-case** on individual directors, committee members, or the entire board of directors as appropriate if:

The board failed to act on a shareholder proposal that received the support of a majority of the shares cast in the previous year or failed to act on a management proposal seeking to ratify an existing charter/bylaw provision that received opposition of a majority of the shares cast in the previous year. Factors that will be considered are:

- Disclosed outreach efforts by the board to shareholders in the wake of the vote;
- Rationale provided in the proxy statement for the level of implementation;
- The subject matter of the proposal;
- The level of support for and opposition to the resolution in past meetings;
- Actions taken by the board in response to the majority vote and its engagement with shareholders;
- The continuation of the underlying issue as a voting item on the ballot (as either shareholder or management proposals); and
- Other factors as appropriate.
- The board failed to act on takeover offers where the majority of shares are tendered;
- At the previous board election, any director received more than 50 percent withhold/against votes of the shares cast and the company has failed to address the issue(s) that caused the high withhold/against vote.

Vote **case-by-case** on Compensation Committee members (or, in exceptional cases, the full board) and the Say on Pay proposal if:

- The company's previous say-on-pay received the support of less than 70 percent of votes cast. Factors that will be considered are:
 - The company's response, including:
 - o Disclosure of engagement efforts with major institutional investors regarding the issues that contributed to the low level of support (including the timing and frequency of engagements and whether independent directors participated);
 - o Disclosure of the specific concerns voiced by dissenting shareholders that led to the say-on-pay opposition;
 - o Disclosure of specific and meaningful actions taken to address shareholders' concerns;
 - Other recent compensation actions taken by the company;
 - Whether the issues raised are recurring or isolated;
 - The company's ownership structure; and
 - Whether the support level was less than 50 percent, which would warrant the highest degree of responsiveness.
- The board implements an advisory vote on executive compensation on a less frequent basis than the frequency that received the plurality of votes cast.

<p>Director Independence</p>	<p>Vote against/withhold non-independent chair.</p> <p>Vote against/withhold non-independent directors when board is not majority independent.</p> <p>Markets with Employee Representatives (as identified by Glass Lewis):</p> <p>Vote against/withhold non-independent directors when board is not majority independent (excluding Employee Representatives from the independence calculation)</p> <p>Vote against or withhold from non-independent directors (Executive Directors and Non-Independent Non-Executive Directors when:</p> <ul style="list-style-type: none"> - The company lacks an audit, compensation, or nominating committee so that the full board functions as that committee; or - The non-independent director serves on the audit, compensation, or nominating committee; or - The company lacks a formal nominating committee, even if the board attests that the independent directors fulfill the functions of such a committee. - Directors serving on the compensation committee that also serve as CEOs (of a public or, where information is available, private for-profit company)
<p>Director Diversity/Competence⁴</p>	<p>Board Diversity</p> <p>US/CAN/UK/AUS:</p> <ul style="list-style-type: none"> -Vote against all nominating committee members (or the full board when no nominating committee) if the board does not include 40% or three (whichever is greater) persons from historically underrepresented groups -Vote against the entire slate of nominees if there are no persons from historically underrepresented groups among directors on the board -Vote case-by-case basis on board racial diversity in countries not specifically mentioned above -Also apply gender diversity per the below (separately) <p>ALL MARKETS:</p> <ul style="list-style-type: none"> -Vote against all nominating committee members (or the full board when no nominating committee) if the board does not include 40% or three (whichever is greater) women -Vote against all male nominees AND the nominating committee if the board is less than 30% female -Vote against the entire slate of nominees if there are no female directors on the board <p>SOUTH AFRICA:</p> <ul style="list-style-type: none"> -Vote against the applicable directors if the company fails the gender requirements above. In cases where a South African company does meet all of Domini’s gender diversity thresholds -Vote against nominating committee members (or the full board when no nominating committee) if the board does not include 40% or three (whichever is greater) directors who are Black African or from other historically under-represented groups (where the information is available)

⁴ Classification of Directors is based on definitions in Glass Lewis ESG Thematic Policy.

Director Diversity/ Competence (cont'd)	Attendance at Board and Committee Meetings	<p>Generally vote against/withhold from directors (except new nominees) who attend less than 75 percent of the aggregate of their board and committee meetings for the period for which they served, unless an acceptable reason for absences is disclosed in the proxy or another SEC filing. New nominees who served for only part of the fiscal year are generally exempted from the attendance policy.</p> <p>Acceptable reasons for director absences are generally limited to the following: medical issues/illness; family emergencies; and if the director's total service was three meetings or fewer and the director missed only one meeting.</p> <p>In cases of chronic poor attendance (i.e. less than 75%) without reasonable justification, in addition to voting against the director(s) with poor attendance, generally vote against or withhold from appropriate members of the nominating/governance committees or the full board.</p> <p>If the proxy disclosure is unclear and insufficient to determine whether a director attended at least 75 percent of the aggregate of his/her board and committee meetings during his/her period of service, vote against/withhold from the director(s) in question.</p>
	Overboarded Directors	<p>Generally vote against or withhold from individual directors who:</p> <ul style="list-style-type: none"> - Sit on more than four public company boards; or - Are CEOs (of a public or, where information is available, private for-profit company) companies who sit on the boards of more than two public companies besides their own—withhold only at their outside boards.
Board-Related		
Classification/ Declassification of the Board	<p>Vote for proposals to repeal classified boards and to elect all directors annually.</p> <p>Vote against proposals to classify (stagger) the board of directors.</p>

Other Compensation Plans

Amending Cash and Equity Plans (including Approval for Tax Deductibility (162(m)))

Vote **case-by-case** on amendments to cash and equity incentive plans.

Generally vote for proposals to approve or amend executive incentive bonus plans if the proposal:

- Addresses administrative features only; or
- Seeks approval for Section 162(m) purposes only, and the plan administering committee consists entirely of independent outsiders. Note that if the company is presenting the plan to shareholders for the first time after the company's initial public offering (IPO), or if the proposal is bundled with other material plan amendments, then the recommendation will be case-by-case (see below).

Vote **case-by-case** on all other proposals to amend equity incentive plans, considering the following:

- If the proposal requests additional shares and/or the amendments may potentially increase the transfer of shareholder value to employees, the recommendation will be based on the Equity Plan Scorecard evaluation as well as an analysis of the overall impact of the amendments.
- If the plan is being presented to shareholders for the first time after the company's IPO, whether or not additional shares are being requested, the recommendation will be based on the Equity Plan Scorecard evaluation as well as an analysis of the overall impact of any amendments.
- If there is no request for additional shares and the amendments are not deemed to potentially increase the transfer of shareholder value to employees, then the recommendation will be based entirely on an analysis of the overall impact of the amendments, and the EPSC evaluation will be shown for informational purposes.

Vote **case-by-case** on all other proposals to amend cash incentive plans. This includes plans presented to shareholders for the first time after the company's IPO and/or proposals that bundle material amendment(s) other than those for Section 162(m) purposes.

Vote **against** proposals to amend executive cash, stock, or cash and stock incentive plans if the proposal:

- Seeks approval for Section 162(m) purposes only, and the plan administering committee does not consist entirely of independent outsiders.
