

Diversified international equity strategy combining leading environmental & social research with a robust quantitative engine

With the Domini Impact International Equity FundSM, impact investors can help drive positive environmental and social outcomes around the world. The Fund invests in a diversified selection of companies throughout Europe, the Asia-Pacific region, and select emerging markets, seeking to provide shareholders with long-term total return consistent with the promotion of ecological sustainability and universal human dignity.

The Fund is managed through a unique, coordinated process: Domini conducts in-depth environmental and social research and analysis to determine which companies meet our Impact Investment Standards, and Wellington constructs and manages a portfolio of Domini-approved companies using a disciplined, systematic approach to stock selection and risk management.

The Strength of Two Firms

The collaboration between Domini and Wellington dates back to 2005 and is designed to capitalize on the strengths of both firms to deliver strong environmental, social, and financial returns to investors. Wellington uses its proprietary quantitative models to identify and select attractively valued stocks from Domini's eligible investment universe.

What Meets Domini's Impact Investment Standards?

MSCI EAFE NR (Benchmark)*

Out of 754 companies in the benchmark:

- 494 met our Standards and were considered eligible for investment
- 160 did NOT meet our Standards based on our qualitative evaluations of their environmental and social impacts
- 100 did NOT meet our Standards based on our exclusions of fundamentally misaligned business activities (see Exclusionary Standards)

*As of 3/31/2024

Domini Impact International Equity Fund*

The Fund invested in 160 companies including:

- 107 out of 494 eligible benchmark companies selected by Wellington Management using its quantitative stock-selection models.
- 53 eligible companies from outside the benchmark, including 27 from emerging markets.

Note: The Fund held an additional 20 companies at a small weight in a Domini-directed portfolio maintained for engagement purposes, bringing the total number of Fund holdings to 180.

Engaging for Impact

As active owners, we seek to amplify the Fund's impact by engaging with companies to address risks and drive positive environmental and social outcomes. This is achieved through a combination of tools, including direct dialogue, proxy voting, and public statements & advocacy.

Carbon Footprint

Carbon intensity of the Fund and its benchmark as of 12/31/2023 in tonnes of carbon dioxide equivalent emitted per USD millions of company sales:¹

Fund	124.07
MSCI EAFE NR	120.64

3% more carbon intensive than the benchmark

Science-Based Targets

We encourage the companies we invest in to adopt science-based targets to reduce GHG emissions.

63% of companies held by the Fund as of 3/31/2024 have set or committed to science-based targets.²

Promoting Diversity

Gender and racial diversity on corporate boards helps mitigate governance risks and promote a more equitable, inclusive culture. We view proxy voting as an important avenue to help improve diversity. In 2023, the Fund opposed **57%** of board director elections due to insufficient diversity.³

Exclusionary Standards

When you invest in the Domini Funds, you avoid investing in certain business activities that we believe are fundamentally misaligned with our goals of universal human dignity and ecological sustainability, including:

- Weapons & Firearms
- Nuclear Power
- Fossil Fuels
- For-Profit Prisons & Immigration Detention Centers
- Alcohol, Tobacco & Gambling

- Carbon intensity calculations, made using Bloomberg's Portfolio Carbon Footprint Tool, are based on Scope 1 and 2 emissions data reported for fiscal year 2022. Where companies did not report such data, it is estimated based on the median of reported figures within their industry groups. Such estimates were used for 4.1% and 2.7% of the Fund and the MSCI EAFE NR, respectively.
- 113 of 180 companies held by the Fund as of 3/31/2024 have set or committed to science-based targets, according to the Science-Based Targets initiative (SBTi), including 93 with "Targets Set" status (indicating targets have been validated by SBTi) and 20 with "Committed" status (indicating an intention to develop targets and submit them for validation within 24 months).
- During 2023, the Fund voted to oppose 752 out of 1,111 director election proposals, including 638 opposed due to insufficient diversity. In certain markets, where data is available, both racial and gender diversity is considered when evaluating board diversity.

Investor Shares Information¹

Ticker: DOMIX

1. Returns for periods of less than one year are not annualized.

Past performance is no guarantee of future results. The Fund's returns quoted herein represent past performance after all expenses. The returns reflect any applicable expense waivers in effect during the periods shown. Without such waivers, the Fund's performance would be lower. Investment return, principal value, and yield will fluctuate. Your shares, when redeemed, may be worth more or less than their original cost. You may lose money. Contact us for performance information current to the most recent month-end, which may be lower or higher than the performance data quoted. An investment in the Fund is not a bank deposit, is not insured, and is subject to certain risks, including loss of principal, foreign investing, emerging markets, geographic focus, country, currency, impact investing, and portfolio management risks. Investing internationally involves special risks, such as currency fluctuations, social and economic instability, differing securities regulations and accounting standards, limited public information, possible changes in taxation, and periods of illiquidity. These risks may be heightened in connection with investments in emerging market countries. The Adviser's evaluation of environmental and social factors in its investment selections and the timing of the Subadviser's implementation of the Adviser's investment selections will affect the Fund's exposure to certain issuers, industries, sectors, regions, and countries and may impact the relative financial performance of the Fund depending on whether such investments are in or out of favor. The value of your investment may decrease if the Adviser's or Subadviser's judgment about Fund investments does not produce the desired results. There is a risk that information used by the Adviser to evaluate environmental and social factors, may not be readily available or complete, which could negatively impact the Adviser's ability to evaluate such factors and Fund performance.

Before investing, consider the Domini Impact International Equity Fund's investment objectives, risks, charges and expenses. Contact us for a prospectus containing this and other information. Read it carefully.

The composition of the Fund's portfolio is subject to change. Visit www.domini.com to view the most current list of the Fund's holdings or the most recent Semi-Annual Report containing a description of the Fund's portfolio.

The Morgan Stanley Capital International Europe Australasia Far East Net Total Return USD Index (MSCI EAFE NR) is a market-capitalization weighted index representing the performance of large- and mid-capitalization companies in developed markets outside the United States and Canada.
