

Diversified international equity strategy combining leading environmental & social research with a robust quantitative engine

With the Domini Impact International Equity FundSM, impact investors can help drive positive environmental and social outcomes around the world. The Fund invests in a diversified selection of companies throughout Europe, the Asia-Pacific region, and select emerging markets, seeking to provide shareholders with long-term total return consistent with the promotion of ecological sustainability and universal human dignity.

The Fund is managed through a unique, coordinated process: Domini conducts in-depth environmental and social research and analysis to determine which companies meet our Impact Investment Standards, and Wellington constructs and manages a portfolio of Domini-approved companies using a disciplined, systematic approach to stock selection and risk management.

The Strength of Two Firms

The collaboration between Domini and Wellington dates back to 2005 and is designed to capitalize on the strengths of both firms to deliver strong environmental, social, and financial returns to investors. Wellington uses its proprietary quantitative models to identify and select attractively valued stocks from Domini's eligible investment universe.

What Meets Domini's Impact Investment Standards?

MSCI EAFE NR (Benchmark)*

Out of 719 companies in the benchmark:

- 468 met our Standards and were considered eligible for investment
- 155 did NOT meet our Standards based on our qualitative evaluations of their environmental and social impacts
- 96 did NOT meet our Standards based on our exclusions of fundamentally misaligned business activities (see Exclusionary Standards)

Morningstar Low Carbon DesignationTM

This is assigned to portfolios that have low-carbon risk scores and low levels of fossil fuel exposure. The designation is an indicator that the companies held in a portfolio are in general alignment with the transition to a low-carbon economy.¹

as of 8/31/2024

Science-Based Targets

We encourage the companies we invest in to adopt science-based targets to reduce GHG emissions. **62%** of companies held by the Fund as of 9/30/2024 have set or committed to science-based targets.²

Promoting Diversity

Gender and racial diversity on corporate boards helps mitigate governance risks and promote a more equitable, inclusive culture. We view proxy voting as an important avenue to help improve diversity. In 2023, the Fund opposed **57%** of board director elections due to insufficient diversity.³

Exclusionary Standards

When you invest in the Domini Funds, you avoid investing in certain business activities that we believe are fundamentally misaligned with our goals of universal human dignity and ecological sustainability, including:

- Weapons & Firearms
- Nuclear Power
- Fossil Fuels
- For-Profit Prisons & Immigration Detention Centers
- Alcohol, Tobacco & Gambling

1. Carbon metrics as of 8/31/2024. Based on 98.49% of eligible portfolio covered. Data is based on long positions only. To receive the Morningstar Low Carbon DesignationTM, a portfolio must have a 12-month average Portfolio Carbon Risk Score below 10 and a 12-month average Fossil Fuel Involvement below 7%. As of 8/31/2024, Fund's Portfolio Carbon Risk Score was 6.31.

2. 107 of 173 companies held by the Fund as of 9/30/2024 have set or committed to science-based targets, according to the Science-Based Targets initiative (SBTi), including 95 that have had their targets validated by SBTi and 12 that have made commitments to develop targets and submit them for validation within 24 months (excluding those that have failed to submit targets within 24 months of their commitments).

3. During 2023, the Fund voted to oppose 752 out of 1,111 director election proposals, including 638 opposed due to insufficient diversity. In certain markets, where data is available, both racial and gender diversity is considered when evaluating board diversity.

An investment in the Fund is not a bank deposit, is not insured, and is subject to certain risks, including loss of principal, foreign investing, emerging markets, geographic focus, country, currency, impact investing, and portfolio management risks. Investing internationally involves special risks, such as currency fluctuations, social and economic instability, differing securities regulations and accounting standards, limited public information, possible changes in taxation, and periods of illiquidity. These risks may be heightened in connection with investments in emerging market countries. The Adviser's evaluation of environmental and social factors in its investment selections and the timing of the Subadviser's implementation of the Adviser's investment selections will affect the Fund's exposure to certain issuers, industries, sectors, regions, and countries and may impact the relative financial performance of the Fund depending on whether such investments are in or out of favor. The value of your investment may decrease if the Adviser's or Subadviser's judgment about Fund investments does not produce the desired results. There is a risk that information used by the Adviser to evaluate environmental and social factors, may not be readily available or complete, which could negatively impact the Adviser's ability to evaluate such factors and Fund performance.
