

Diversified international equity strategy investing in peer-relative environmental and social leaders

Today, global stock markets offer thousands of investment opportunities. With the Domini International Opportunities FundSM, shareholders have the opportunity to benefit from broad international diversification while helping make a difference around the world. The Fund is managed by innovators in the field of impact investing and seeks to provide its shareholders with long-term total return consistent with the promotion of ecological sustainability and universal human dignity.

The Fund's active investment strategy leverages Domini's Impact Investment Standards and bottom-up environmental and social research to invest in stocks of companies that demonstrate peer-relative environmental and social leadership throughout developed markets in Europe and the Asia Pacific. It also provides opportunistic thematic exposure to companies delivering solutions to some of the world's greatest sustainability challenges.

What Meets Our Impact Investment Standards?

MSCI EAFE NR (Benchmark)*

Out of 710 companies in the benchmark:

- 459 met our Standards and were considered eligible for investment
- 156 did NOT meet our Standards based on our qualitative evaluations of their environmental and social impacts
- 95 did NOT meet our Standards based on our exclusions of fundamentally misaligned business activities (see Exclusionary Standards)

*As of 12/31/2024

Domini International Opportunities Fund*

The Fund invested in 281 companies including:

- 243 out of 459 eligible benchmark companies that we believe demonstrate peer-relative environmental and social leadership and/or provide solutions to sustainability challenges
- 38 eligible companies from outside the benchmark, including select companies outside its geographic and/or market-cap constraints

Engaging for Impact

As active owners, we seek to amplify the Fund's impact by engaging with companies to address risks and drive positive environmental and social outcomes. This is achieved through a combination of tools, including direct dialogue, proxy voting, and public statements & advocacy.

Morningstar Low Carbon DesignationTM

This is assigned to portfolios that have low-carbon risk scores and low levels of fossil fuel exposure. The designation is an indicator that the companies held in a portfolio are in general alignment with the transition to a low-carbon economy.¹

as of 10/31/2024

Science-Based Targets

We encourage the companies we invest in to adopt science-based targets to reduce GHG emissions. **73%** of companies held by the Fund as of 12/31/2024 have set or committed to science-based targets.²

Promoting Diversity

Gender and racial diversity on corporate boards helps mitigate governance risks and promote a more equitable, inclusive culture. We view proxy voting as an important avenue to help improve diversity. In 2023, the Fund opposed **57%** of board director elections due to insufficient diversity.³

Exclusionary Standards

When you invest in the Domini Funds, you avoid investing in certain business activities that we believe are fundamentally misaligned with our goals of universal human dignity and ecological sustainability, including:

- Weapons & Firearms
- Nuclear Power
- Fossil Fuels
- For-Profit Prisons & Immigration Detention Centers
- Alcohol, Tobacco & Gambling

1. Carbon metrics as of 10/31/2024. Based on 95.15% of eligible portfolio covered. Data is based on long positions only. To receive the Morningstar Low Carbon DesignationTM, a portfolio must have a 12-month average Portfolio Carbon Risk Score below 10 and a 12-month average Fossil Fuel Involvement below 7%. As of 10/31/2024, Fund's Portfolio Carbon Risk Score was 5.65

2. 204 of 281 companies held by the Fund as of 12/31/2024 have set or committed to science-based targets, according to the Science-Based Targets initiative (SBTi), including 179 that have had their targets validated by SBTi and 25 that have made commitments to develop targets and submit them for validation within 24 months (excluding those that have failed to submit targets within 24 months of their commitments).

3. During 2023, the Fund voted to oppose 1,182 out of 1,853 director election proposals, including 1,054 opposed due to insufficient diversity. In certain markets, where data is available, both racial and gender diversity is considered when evaluating board diversity.

An investment in the Fund is not a bank deposit, is not insured, and is subject to certain risks, including loss of principal, foreign investing, geographic focus, country, currency, impact investing, portfolio management, and information risks. Investing internationally involves special risks, such as currency fluctuations, social and economic instability, differing securities regulations and accounting standards, limited public information, possible changes in taxation, and periods of illiquidity. These risks may be heightened in connection with investments in emerging market countries. The Adviser's evaluation of environmental and social factors in its investment selections and the timing of the Subadviser's implementation of the Adviser's investment selections will affect the Fund's exposure to certain issuers, industries, sectors, regions, and countries and may impact the relative financial performance of the Fund depending on whether such investments are in or out of favor. The value of your investment may decrease if the Adviser's or Subadviser's judgment about Fund investments does not produce the desired results. There is a risk that information used by the Adviser to evaluate environmental and social factors, may not be readily available or complete, which could negatively impact the Adviser's ability to evaluate such factors and Fund performance.
